GIVE US AN HONEST VOTE.

The decision of Judge BARRETT that the polls must close at 4 o'clock is doubtless a correct interpretation of the law. It makes it incumbent on every good citizen to take care that the voting shall be unobstructed in districts where the registration is large.

A person has a right to challenge any voter whom he believes to be not legally entitled to the franchise. But he must have some good ground for such belief. Any person who challenges unnecessarily is an obstructionist, guilty of an attempt at fraud, and should be at once removed from the poils and arrested under whatever authority he may claim to be acting.

It is the duty of the police to take care that there is no illegal obstruction at the polling places and to arrest all offenders. To seek to keep a legal vote out of the ballot-box is as great a crime as to attempt to get an illegal

A CHANGE TO PROVE INNOCENCE.

In 1880 Mr. LEVI P. MORTON raised an enor mous election fund at very brief notice in this city and it was sent out to Indiana to buy the electoral vote of that State for Gar-

There was but little attempt to conceal the fact of the wholesale corruption before election. After election the Vice-President-elect at a congratulatory dinner boasted of the success which in Indiana had attended the liberal use of " soap."

This year a letter is published purporting to have been written by Col. W. W. Dudler, Treasurer of the Republican National Committee, urging the repetition of this bribery and corruption and promising the Indiana Republican State Committee ample funds for

The stupid boldness with which a criminal act is counselled, makes it incred-Ible that any shrewd politician should have been guilty of an act of such indiscretion. But Col. DUDLEY admits he wrote a letter, although he denies that he wrote the one published. Well, if Col. AN EXCELLENT EXAMPLE The recent fatal railroad accident to the

Imperial train on the Caucasus Railway in South Russia, shows that a Czar is as hable as drummer to meet with such disasters when he travels by rail. A number of lives were lost, and the Czar and his wife, with other members of the Imperial family, had narrow escapes. The only death in the royal circle was that of a favorite dog, which was in the car with the Czar.

The accident has, however, been attended by a result which might be most valuable if it should be accepted as a precedent in this country. The disaster was at first attributed to Nihilistic work, but it proves to have been due to official carclessness, and the Director of the Corporation, Count ALENSI-KOFF, has in consequence committed suicide.

If his example should be followed in the United States, there might be better protection for public life on our railfoad lines.

OUR BURLESQUE VISITORS. The sixty plump young women who are to appear in burlesque at the Standard Theatre this month arrived from England yesterday. They were not stopped on the dock as imported labor, nor was any tariff levied on them for the protection of our home short-skirted industry. They landed without any trouble, and proceeded to their destinations under the escort of their manager and his assist-

ants, and the admiring glances of the Custom-House officers and dock employees.

These interesting importations are from the popular company of the Gaiety Theatre, in London, where fun and frolic are the order of the day, or rather of the night. They are to be joined by the bright particular star of the Gaiety, the fascinating NELLIE FARREN. Sweet creature! She will doubtless cause a flutter in the hearts of our club men, as she did among the English dudes twenty years ago, notwithstanding the obstruction at that time of a husband and two children.

NEWTON'S FOLLY.

It seems that "DICE" CUNNINGHAM IS not the only favored contractor to whom \$999 contracts or orders are given by the Public Works Department, in evasion of the law.

Another pet of the Department is Farn THILEMANN, jr., an ex-Assemblyman and County Democracy leader, to whom is awarded the almost exclusive work of the renewal and repairing of Cropipes, &c. As in the case of happy Dick, contracts are given to THILE-MANN in evasion of the law, by chopping up the work so as to make the amount come below \$1,000.

THILEMANN'S " pull " seems to be hidden ander the little word "Co." In this case the 'Co." is none other than the brother of LOWBER SMITH, Gen. NEWTON'S "deputy." He is THILEMANN'S ' pard."

Will Gen. Newton explain how these contracts or orders for the benefit of the SMITH family are advantageous to the city?

The loss of five, and probably of seven ives through the explosion of a rotten boiler at Reading, Pa., may well call attention to the condition of boilers wherever they are used in this city. The inspection of boilers is a duty very commonly neglected, and those who are daily using them forget all about the langer until an explosion occurs.

The plan adopted by the Staten Island Rapid Transit Company of placing girls at the ticket windows instead of men is likely to prove a failure. It takes the men passengers particularly the old ones so long to find their nickels and take up their tickets that the cars are delayed and the passages blocked in the busy hours of the day.

Miss HENRIETTE MARKSTEIN'S free concerts for working girls will be continued to-morrow at Clarendon Hall, 115 and 116 East Thirteenth street. This is a far better hall than that on Fifth avenue. The programme for to-morrow is very attractive.

Some Views from the Tombs

I have read with a great deal of interest the

theories advanced by the numerous readers of your paper as to how and what they would do if they were millionaires. And allow me do if they were millionaires. And allow me to say that I think the wealth of our city (some cases excepted) is misplaced, for evidently the majority of the poor are far more charitably inclined than their more fortunate fellow-men, if they only had the means to put into execution their plans for benevolence. No doubt but our city bears evidence of some noble works of benevolence. But how many acts of genuine charity have we witnessed as coming from the average millionaire without it being set in front of the eyes of the public for advertising the fact? It would seem almost incredible for me to state here that the unlucky inmates of this institution, have never seen or known of charity coming from any of the so-called benevolent and Christian millionaires excepting from one. That one is Mrs. Evastine Sharftner. This really Christian lady devotes her time and money to providing for and assisting in general the worthiest of the prisoners. She evidently intends to carry her charity further than simply saving she is sorry and letting the matter rest at that. What a noble way she tries to live what a grand and sublime maxim this lady sets forth, Trying to improve and better the condition of those whom some of the aristocratic noblemen of our city despise, If the question of how a millionaire should use his money ought to be discussed, we are all glad that The Evening World Divertice.

SCHOOL COMMISSIONERS AT ODDS.

there was going to be a temporary disintegration of that body.

Commissioner Wood's resignation has started the ball rolling, and the rumor that several others will follow his example has had an extremely demoralizing effect upon the other members.

It is a well-known fact that the dissensions in the Board, which arose over the reports in the Virginia Mason case and the attempt to make things unpleasant for Supt. Jasper, led to a great deal of bitter feeling and things have been getting worse and worse ever since.

As Commissioner Wood was the oldest member of the Board, of which for a long time he was President, his resignation is re-

time he was President, his resignation is regarded as a very serious matter.

President Simmons and Commissioners Jacob D. Vermilye and William Lummis, who are said to be in sympathy with Commissioner Wood, deny that they intend resigning, though they say affairs in the Board are in a very critical condition.

There seems to be a disposition among the other members of the Board to hush up the seandal.

LABOR'S POLITICAL TROUBLES.

Delegates Vehemently Denounced for Can paign Work. The troubles growing out of the action of

certain delegates of the Central Labor Union in the political campaign formed the burden of a long discussion in the Building Trades

Section last night.

The ball opened by the Secretary saying that he could not furnish all the minutes of the previous meeting, because Delegate McKim had carried off a resolution requesting the organizations of the Section to join in a demonstration in favor of James J. Coogan. McKim said he had the resolution, but had left it at home.

The Housesmith's Union sent in a communication strongly denouncing by name a delegate of the Miscellaneous Section and the Central Union, with "others," for using their positions in organized labor in acting with politicians in a knavish and tricky manner, and thus doing great injury to all trades and labor societies. The housesmiths wanted the Section to recommend the Central Labor Usion to rid itself of the persons complained of.

The District-Attorney has had about fifty men indicted for illegal registration, and at his request Inspector Byrnes assigned to him, five shrewd Central office detectives to work up the evidence, seek out the antecedents of the prisoners, and aid generally in bringing to justice Republican colonizers from West Virginia.

United States Marshal McMahon has decided to have his headquarters on Election Day at an up-town hotel, and will be in readiness all day to issue warrants and see that they are executed.

The arrangements are complete for receiving and reading off the returns on election night. The election district returns will be read aloud, and a complete table will be kept. The order of count is: Electoral, State, judicial. Congressional, city and county, legislative and ward tiekets. It will be fully 11 o'clock p. TRICKS OF DRUGGISTS.

How a Few Druggists Turn the Reputation Others to Their Own Profit-Som thing, However, Which No Self-Respecting Druggist Would Do.

The remarkable and unprecedented sale of Dr. Greena's Nervura Nerve Tonic has excited the curidity of certain druggists. Seeing the daily enormous demand for this wonderful discovery for the cure of nervous diseases, many stores having literally hundreds of calls daily for this great remedy, some unprincipled druggists have sought by trickery and false representations to turn this great sale to their own mercenary interests.
